

Project Thespis

MODIFICATION DATE Tue May 22 2012
CREATOR Spark Revolutions

DESCRIPTION This document conceptualises the initial ideas for Project Thespis. This is a *work in progress* and does not necessarily reflex the final product.

VERSION HISTORY 1.0 Final

Matching production studios with a crowd of resources

Remove Barriers

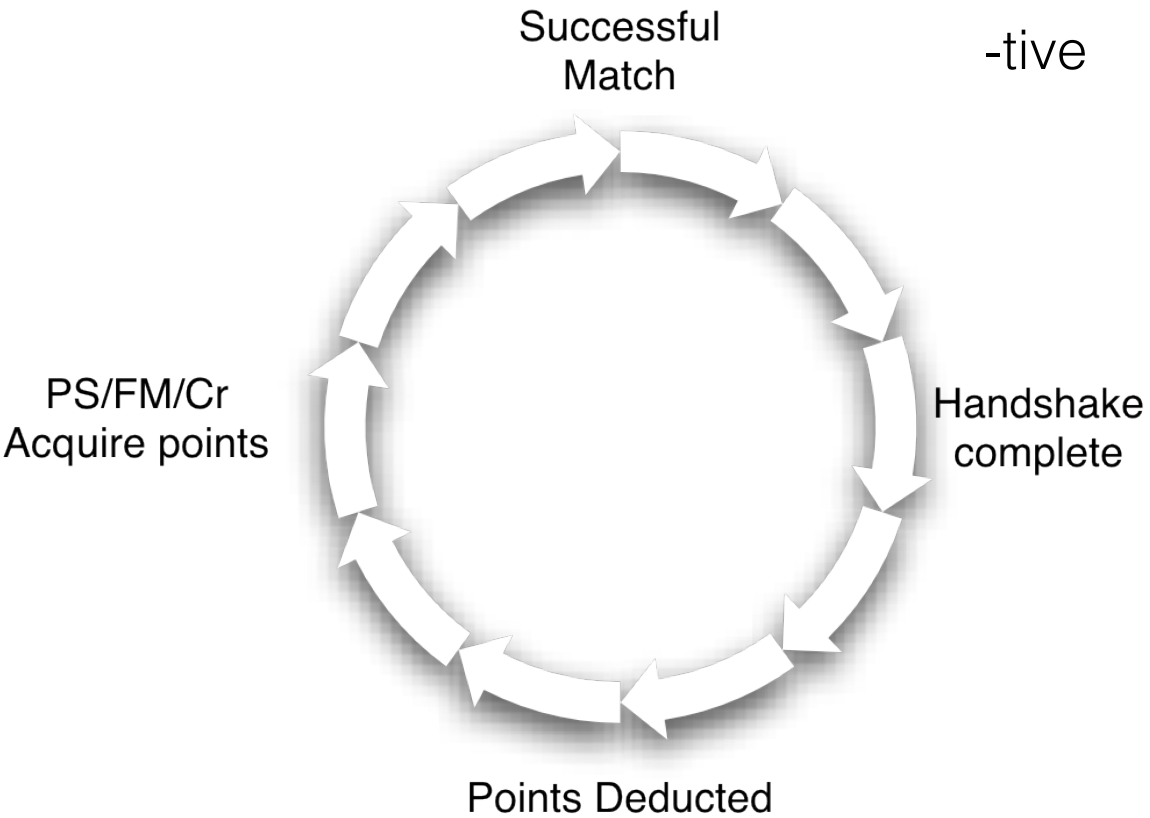

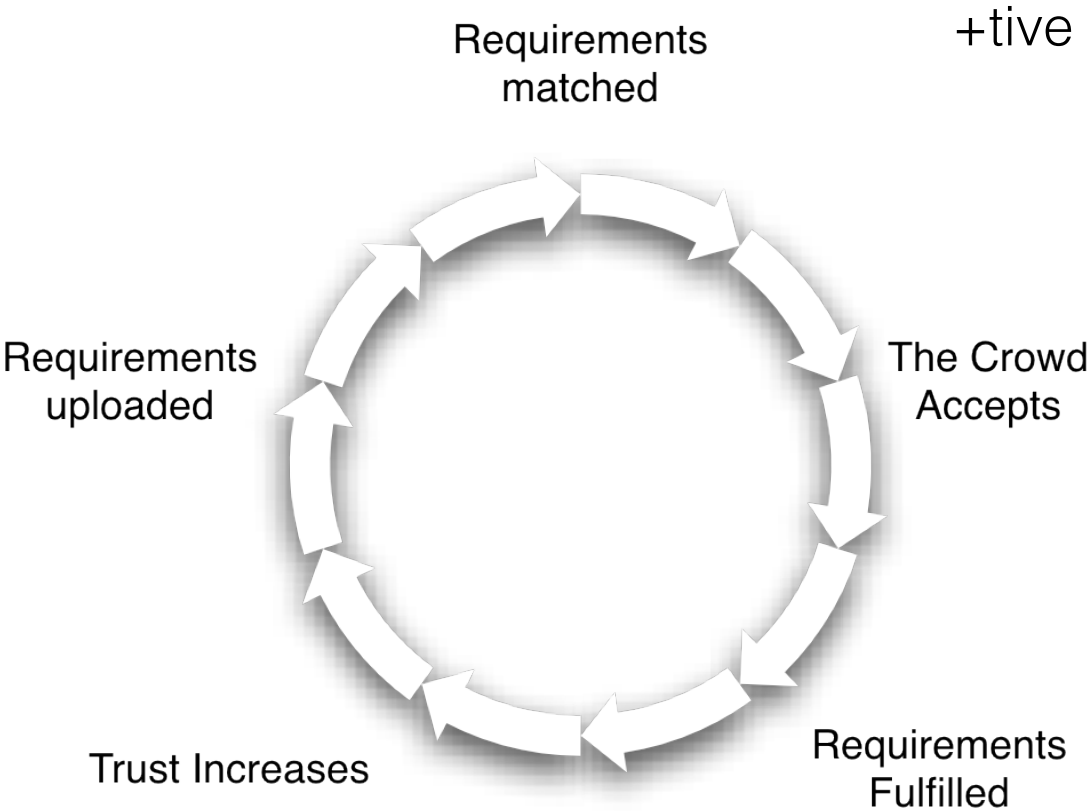

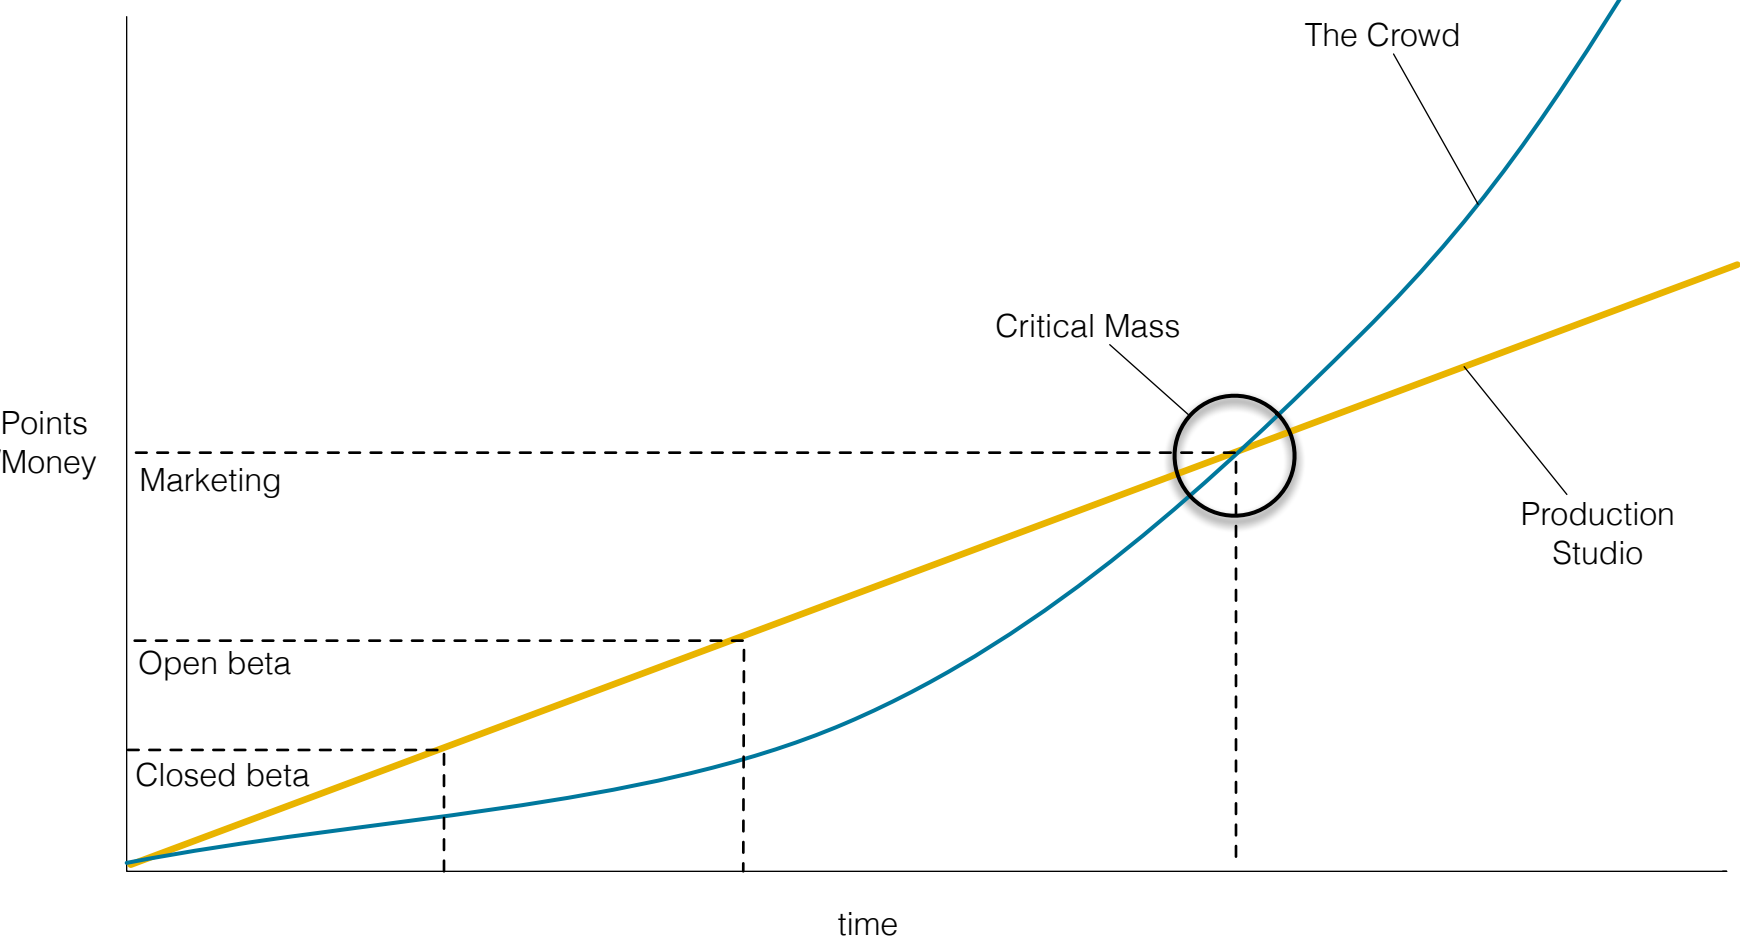

Modernist Design

Everyone's a winner

Creativity benefits above all

Sustainable

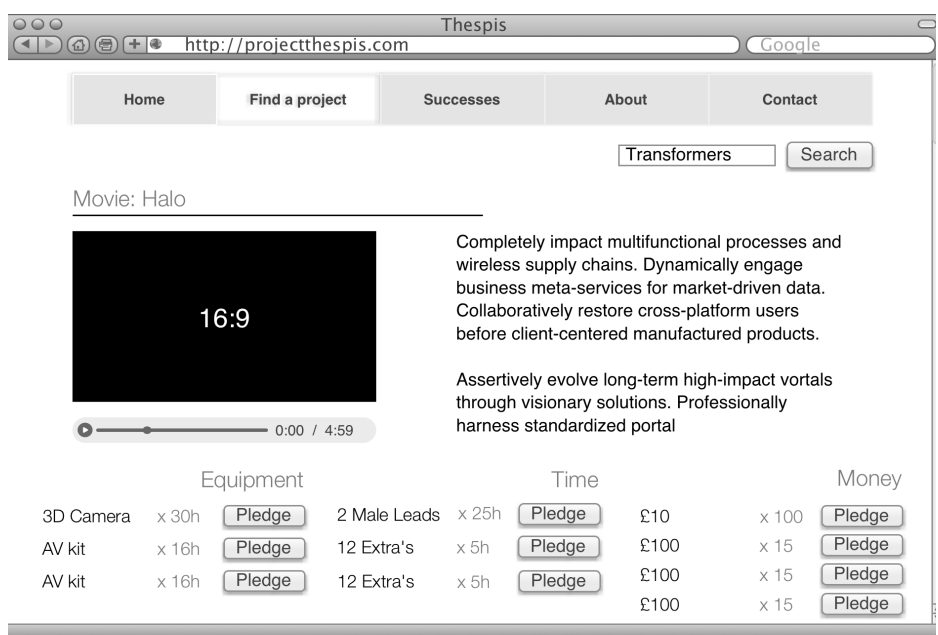

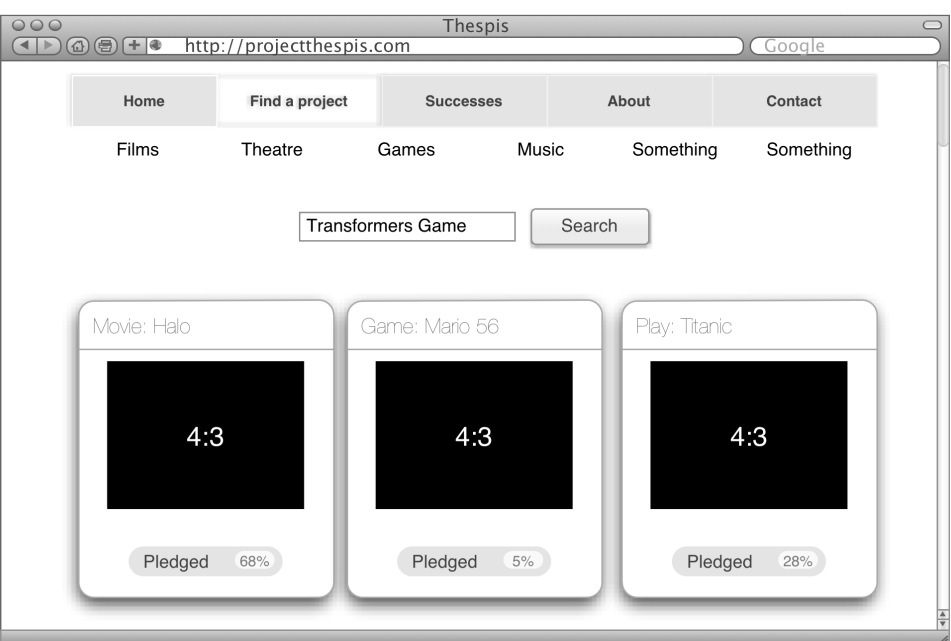

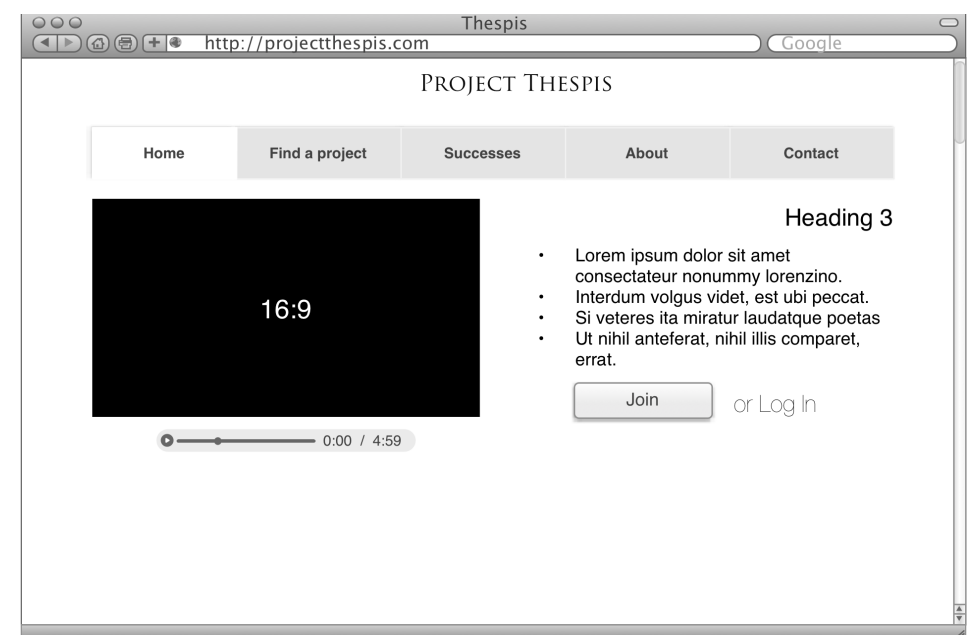

In order to make the system self
perpetuating, and thus self
funding, we need to achieve a
critical mass of users

Discovery is key, to encourage crowd funding, we encourage crowd discovery

Users can search for specific projects that have been publicised through integrated social media

Remove barriers so anyone can contribute to any project by categorising resources as Equipment, Time and Money

This is a mock interaction with no design (as this is fuelled by research)
